

Ideas for 2-3's

Communication, Language and Literacy

Recycle week - Bottle top patterns

Creating activities from recycled objects.

Save your bottle tops and create pictures/ patterns.

Talk to the children about what they are doing, colours they are using, patterns they are making.

Lots of fun upcycling items. [#let'sgettalking](#)

Maths

Homemade maths

Let's make a maths game using recycled materials.

Counting, different sizes and colours.

Match the colour slots to the colour of the tops and place a number at the side.. Count as you place them in the box.

Maths is lots of fun.

Physical

Don't throw out those cardboard boxes just yet, let the children have fun and use their imagination.

Is it a car

Is it a bus

Is it a boat

It can be anything you want it to be.

Emotional and Mental Wellbeing

Sensory Bottles

Upcycle plastic bottles and make them sensory.

You can put in objects, materials, water etc to make calming sensory bottles.
