

Ideas for 4-5's

Communication, Language and Literacy

Are there any stories that are your favourites?

Can you share them with family or a friend? Could you do a 'book swap' where you lend each other your favourite book and they lend you one back. Find out if you both liked the same stories?

Maths

Looking and finding leaves whilst you are out on a walk. The leaves are starting to change colour getting ready for autumn. Look for a variety of different colours. Make a hole at one side and thread them through a rope or string. You could hang them up in the garden and watch them move in the wind.

Physical

It is so much fun looking for conkers. When you have collected a few, can you string them together, use pipe cleaners to make legs and add eyes. You have made a caterpillar.

Emotional and Mental Wellbeing

Make everyone laugh with a few silly jokes. Look for jokes or ask everyone if they have a good joke to tell you. Soon you will have a good collection.

You could have a joke time at home to make everyone laugh.
